

Nice France

Sir,

In these days of excellent healthcare,
I was very much impressed with the
undergone operation. Knee surgery re-
covery is like shaving in the morning.
Nearly instantaneous result and small
risks.

My initial skepticism has been replaced
by strong applause for your daily
work.

A such a debilitating and very
painful injury, becomes a distant
memory very quickly.

I thank you very much and wish you
and your staff all the best.

Kind Regards
